

Skills for Success

Don't miss SCTE's Virgin Media/UPC/Telenet Taster Training Days

10 February 2015, 10 March 2015 and 12 March 2015

The SCTE is continuing its successful "Taster Training Day" series and would like to invite you to join us and support this initiative. The training days are planned for **10 February 2015** at Virgin Media Croydon, **10 March 2015** at UPC NL (Amsterdam, Netherlands) and **12 March 2015** at Telenet (Mechelen, Belgium). These training days provide vendors with a new opportunity to engage with Virgin Media/UPC/Telenet technicians and engineers in a friendly and professional setting.

The training days are advertised on the Virgin Media/UPC/Telenet intranets and targeted at technicians and engineers who are new to the business and would like an introduction to a number of technology topics as well as the opportunity for "hands-on" experience with some vendors' products.

- Delegates will be able to pre-register their attendance at the Taster Day and also register on the delivery day.
- The Taster day will run in two lecture rooms.
- Room "One" will be used for vendors to provide formal half-hour long "brand-agnostic" technology presentations.

- Room "Two" will provide vendor "hands-on" workstations, where technicians and engineers can work with products and test equipment used in different parts of the broadband network.
- The morning's schedule of lectures and hands-on experience will be given by ten vendors.
- Coffee will be available all day from an area close to the SCTE membership promotion booth.
- The SCTE booth will provide SCTE membership packs and the opportunity for engineers and technicians to view the SCTE formal training packages.
- A free buffet lunch will be offered to delegates.

Programme Schedule

- 08:30 Registration & Coffee**
- 09:00 Presentations – Morning Session (3½ hours)**
- 12:30 Complimentary Buffet Lunch**
- 13:30 Presentations – Afternoon Session (3½ hours)**
- 17:00 SCTE Taster Training Day – Close**
